

This Holiday Give

FreeSchools World Literacy Gift Certificates

S\$ 22.00 or US\$15 will send a child in Bihar, India to school for a YEAR

FreeSchools World Literacy (FSWL) is a grassroots initiative that empowers women and children with a free education. Using existing space, FreeSchools invest mainly in teacher salaries and learning materials. A basic curriculum of reading, writing, mathematics, health & hygiene is offered to children who reside in slums, villages and refugee areas and have no other educational opportunity. In some villages sewing schools teach a marketable skill to girls 12 yrs and older.

FreeSchools educates boys and girls, though a priority is given to attracting girls who are under-represented in school and at risk for exploitation. There are 80 school programs in 4 locations in India and Northern Thailand, of which 50 FreeSchools are located in Bihar, India. In 2011 we will open a school in Bangladesh. Scholarship programs to tuition schools are available for exceptional students.
